Walk of Art – Paris

Walk the streets of Paris discovering centuries of art - from Da Vinci to Dali, and of course, Monet. You will visit well-known galleries such as Musée du Louvre, Musée d'Orsay and Musée de l'Orangerie. You will also discover some of the lesser-known galleries, such as Dalí Paris in the famous Montmarte district. As a treat, you'll escape the city to Monet's house in Giverny for a day. Inspired by our gallery visits, you can create your own watercolour masterpieces, en plein air, with the goodies in your arty gift pack. Rest assured; there will be plenty of free time for you to relax, go shopping or find the perfect macaron!

After arriving in Paris and settling in at the hotel, we will meet for a welcome drink and dinner with the rest of the group before setting out for some wandering - because at night this glittering city is always at its best. On **day 2** after a French indulgent breakfast (how many croissants and pastries are too many?) we will dive right in and spend hours wandering the Louvre, before heading in the late afternoon to paint in the gardens of Jardin Des Tuileries. Then if we feel like it we can enjoy a walk along the Champs Elysee - because why not! Then on **day 3** we visit Musée d'Orsay and walk beside the river Seine to Notre Dame. Time to paint and engulf in what we have been inspired by so far. Lunch in the Latin Quarter before free time and dinner. While we are in the area we may even stop into Saint Chapelle.

Day 4 is a day out of the city to visit Monet's Garden in Giverny - see the real-life gardens that you saw in paintings just yesterday at the Musée d'Orsay.

On **day 5** we are off to visit Musée de l'Orangerie (Imagine standing amongst Monet's paintings, in a room that is all about him) and the Rodin Museum. Lunch and, of course, time to paint.

Day 6 is all about visiting the Montemarte district, Dali Paris, and Sacre Coeur. Paint on the steps overlooking Paris, with a delicious lunch and dinner somewhere delightful.

Day 7 depends on you - maybe it is time to go up the Eiffel Tower, climb the Arch de Triomphe or maybe fit in some shopping... and if you want to do more painting, then that is always an option. All before our final dinner together.

Day 8 means we head home or onwards to Salzburg, Venice or Berlin - check out our 'extra options'.

Sharon can't wait to take you on this ultimate indulgent art journey - and Paris is the perfect place as there are so many amazing museums and galleries. She is so looking forward to holding the space for you to take everything in and get a deeper understanding of the artworks and how they inspire you and make you feel.

Escape Artists - Paris, Versailles, Chantilly

Paris is one of the world's most magical cities, but who wants to queue for hours to enter a gallery in summer, when we can travel off the beaten track into hidden parts of the city or escape to the country? Pack your travel sketchbook & walking shoes and prepare to be awe-inspired by the history, heritage, art & gardens of the Palace of Versailles, and the magnificent Chateau de Chantilly - both short trips from Paris by rail! Feel like royalty as you wander amid the beauty and splendour of French heritage gardens and architecture. The aim of this retreat is relaxed creativity, exploration and fun, suited to all levels, all while learning from renowned artist, art history-lover and author, Victoria Kitanov.

So what will we do over our time together?

Lets's meet on **day one** in Paris with the rest of the group that have said **A BIG YES** to exploring their passion for art. After check-in we will come together as a bigger group for dinner and see the glittering Eiffel Tower by night. After breakfast of seasonal fruit & fresh croissants on **day 2** we will travel by train to Versailles (2 hours). Stretch your legs with a free afternoon to explore this delightful city, then meet and dine together in the evening - while you are out & about, why not loosely sketch sites, scenes or people, or just observe and absorb it all in sensory overload! **Day 3** is all about the formal gardens, fountains & features of the Palace of Versailles. Let's explore and capture inspirational aspects of the grounds in our sketchbooks. Fall in love with Le Petit Trianon, redesigned by Marie Antoinette as an informal pleasure garden and rustic village. It's easy to explore on foot, bicycle or garden 'train' or meander slowly down to the historic cafe 'La Flotille' near the Grand Canal. Enjoy it all at your own pace! **Day 4** we return to the Palace of Versailles and indulge in the lifestyles of the rich and infamous! Originally built as a hunting lodge by Louis XIII in 1623, the Chateau de Versailles was transformed by Louis XIV into the glorious de facto capital of France. If history is not your thing, you'll be captivated by the light, colour, and decorative aspects...and of course, we can't pass the palace cafe without sampling tea and cakes inspired by the French court of the 18th century. The city of Versailles itself has plenty of great little eateries for us to enjoy in good company and share our sketches and other discoveries! On **day 5** we travel from Versailles to Chantilly via Paris. In the French region of Hauts-de-France is the fabulous Chateau de Chantilly, built over more than 5 centuries ago. A true sample of French Renaissance heritage... the castle houses the Condé Museum which includes paintings by Raphael, Fra Angelico, Poussin, Ingres and Watteau. The Chantilly estate in Oise, just 40 km from Paris, also houses the Horse Museum, in homage to the original site on which it was built (Grandes Ecuries), with gardens designed by Le Nôtre - a travel artists dream with so many options. **Day 6** - Domaine de Chantilly - Heritage and Horses! So much to see and sketch in and around the castle, parks and gardens. Be inspired! On **day 7** we travel from Chantilly to Paris and get to explore some of the city all before our final dinner together and our journey, home or onwards on day 8.

Purpose Evolution Retreat

You will discover beautiful Paris as part of your exquisite retreat while joining fellow like-minded and like-hearted people all while being guided through The Purpose Evolution Retreat program with Maggie.

This is a 6-part program that will transform your life in an experiential journey into your self-development. An interactive and immersive masterclass and meditation series with practical tools and tips focused on personal growth, purpose development, the Akashic Records, self, and DNA healing. This Retreat will connect you to your true self, your 'soul blueprint', and purpose so you can live your happiest life.

This is one of those life-changing opportunities that don't come around very often - and it's in Paris so why wouldn't you say YES! Each day follows the one before building on your knowledge and purpose. Our days will conclude with some free time, delicious dinner and time to explore Paris at its best.

On **arrival day** come check-in, and meet Maggie and your other retreat members before dinner with the larger group.

Day 2 is all about an introduction to purpose evolution. We explore the 'core' purpose, recognizing it as an evolving way of being rather than something we do, all this before heading out for an afternoon stroll around some of the iconic Paris sites and dinner in the Latin Quarter.

Day 3 is about how purpose, and mission connect with the Akashic Records. It allows for us to connect more deeply with who we are and our purpose - then we head back out into the beauty of the city for some more sightseeing and a night river cruise on the beautiful Seine River.

Day 4 - Manifesting Potential - let's unravel how to tap into our highest potential self, abilities, and skills (both learned and innate). Dinner at a secret location will wrap up this day perfectly

On **Day 5** we look at The 5-Step Purpose Evolution Program or STARS. Hint: We get even more practical with this session! Plus, you get a downloadable guide for the STARS program for ongoing practice and reference.

Day 6 - Practical exercises to connect with your purpose. Congratulations! You're moving towards the final stages of 'The Purpose Evolution' retreat. Time for some exercises to bring home what we've explored so far. Even more importantly, you can now clear what doesn't serve you anymore and create your new path with deeper intentions, as you continue to live your life on purpose and in your happiest state.

Day 7 - Living your true purpose out loud - A healing and meditative session focused on magnetizing purposeful ways of BEing into our lives and in relation to others - so you can live your most balanced and happiest life: family, career, business, relationships, financial etc.. This evening we join with the other retreat groups for a wonderful dinner and celebration to end your time in Paris.

Day 8 - Travel home or onto 'bonus' tour.
